"You are doubtless aware of the development of Zahony as a transshipment station, and the construction of several other transshipment stations in the area. Estimates based on our existing knowledge of the lines from Budapest serving in this area indicate that they do not have the capability of absorbing the transshipment capability of the Zahony area. We therefore assume that our knowledge of these lines may not be accurate or up-to-date.

In the hopes of getting better information I am circulating to all our sources the attached questionnaire "Railways in Hungary - Special Questionnaire."

Three copies are attached for you. I would be very grateful for any answers to the items enumerated and would be obliged if you could give the matter some priority."

Enclosure: As mentioned above (3 copies)
